

Dear Madam,

At the outset I would like to thank you and your team for the exhaustive work of house inspection. The awareness of house inspection is still less. I had already discussed this issue with other incumbents also. I feel that such inspection is essential for any house.

At the end I would like to know from you that how much time frame may I give to the builder for total rectification and repair works what so ever had been projected in your inspection.

Thanking you in anticipation.

Regards.

Dr. Y. P. BHATTACHARYA,

Retd. Director, SAIL, BSL
